

TraderLiteGUI Workstations

www.itsys.ca

The ITS TraderLite workstation is one of two trading workstations offered by ITS. It is Windows-based display for traders who prefer a point and click interface.

ITS TraderLite benefits include:

- High Performance
- Low system footprint
- US Market Data & US Order entry capability
- Buddy Trading Capability
- Registered Trader functionality
- Auto-failover Capabilities
- Redundant Facilities for high-availability
- Sold at a price point that makes ITS workstations cost-effective as backup workstations. Backup Workstations can now CFO orders entered from another vendor's workstation.
- Ticketless trading available using **PositionWatch™**

2012 Pricing for ITS TraderLite & ITS TraderLite GUI Workstations

\$750 – 1+ workstations

\$700 – 10+ workstations

\$650 – 16+ workstations

\$150 (base price) – backup workstation

ITS SOR included in all pricing

NEW in 2012 » Real time charting and Net House summaries available

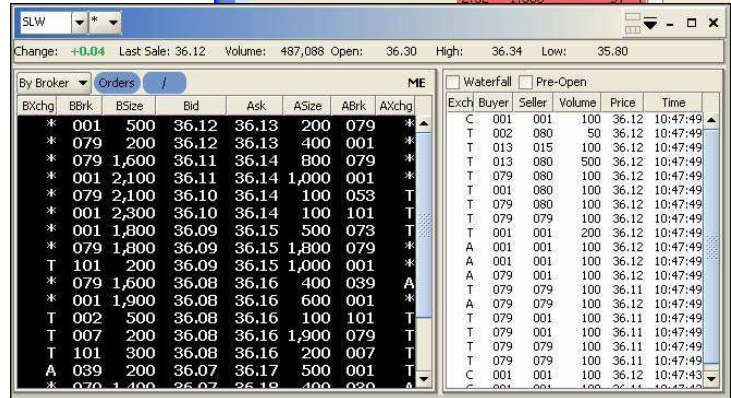

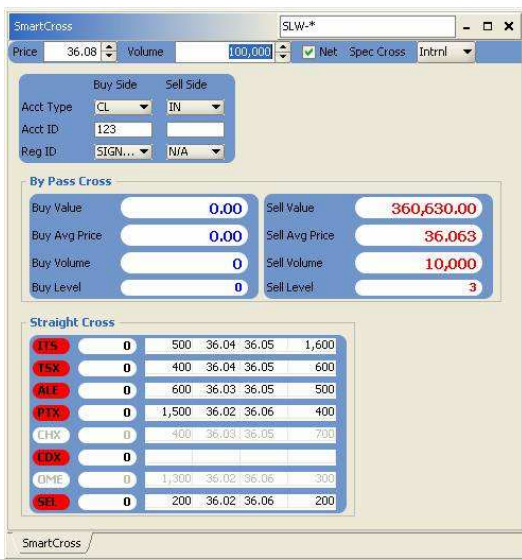

The screenshot displays the ITS TraderLite GUI interface. At the top, there's a menu bar with options like 'Show View', 'Feeds', 'Perspective', 'Options', 'Window', and 'Help'. Below the menu is a toolbar with icons for 'L2', 'STW', 'ORDLOG', 'P/L', 'Box', 'New Order', 'Alerts (0)', and 'On Stop (0)'. The main window is divided into several panes:

- Stock Watch:** A table listing various stocks with columns for Symbol, Tick, bSize, bPrice, aPrice, aSize, Change, Last Sale, Volume, %Change, Open, High, Low, S2High, and S2Low. Stocks listed include FVW, SSP, DDN, SSSL, DBJ, TUD, DTB, HSE, FFH, FMJ, AOF, HGU, VRI, IMN, DEI, AZA, RCH, ARD, EMT, RBA, KCC, and IFC.
- Block Trades - Page: 1:** A table showing trade details with columns for Exch, Symbol, Buyer, Seller, Volume, Price, and Time.
- Level 2: FFH - Page: 1:** An order book for FFH with columns for By Broker, BSize, Bid, Ask, ASize, and Abk.
- Level 2: RY - Page: 1:** Another order book for RY with similar columns.
- General Messages:** A log of system messages and alerts, including participation off alerts and order status updates.

All ITS Trading Workstations are integrated with the market-leading ITS Hybrid SOR to provide high-performance trading across all Canadian marketplaces .

TraderLite GUI users can choose what displays they would like on their screen at any time.

- A keyboard or point-and-click order entry screen is provided
- Integrated or Individual Exchange market depth displays are available.
- P&L and Supervisory P&L screens can be setup to display positions
- A MOC Imbalance screen is able to display all symbols in MOC imbalance in one screen
- The SMART CROSS display allows users to enter cross details and see visible interference before executing the cross. The offsetting bypass order is automatically calculated and sent with the cross after user verification. Sequence numbers of all feeds are recorded along with the time the edit response was displayed on the screen before executing the order for audit purposes.

- **NEW in 2012** » Real time charting and Net House summaries available as shown below.
